The Company assumes the NAIC Model Act reserves at the same rate as prescribed in RSMo 381.072 of fifteen cents per thousand of retained risk or as required of foreign insurers by state regulations. Thus, the amounts above are related to the differences in the amortization schedules to restore statutory premium reserves “SPR”.

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

Revenue recognition and related expenses - Premiums are recognized as earned at the time of the closing of the related real estate transaction. Premiums on title insurance policies written by agents are recognized primarily when policies are reported to the Company. In addition, where reasonable estimates can be made, the Company accrues for policies issued but not reported until after period end. The Company believes that reasonable estimates can be made based on policy issuance information from our affiliated agent. In this accrual, future transactions are not being estimated. The Company is estimating revenues on policies that have already been issued by the affiliated agent but not yet reported to or received by the Company. In addition, the Company has in place an excess of loss ceded reinsurance agreement which is on a claims made basis. Establishment of statutory premium reserves as well as other expenses incurred in connection with issuing the policies are charged to operations as an expense in the current period.

In addition, the company uses the following accounting policies:

(1) Short-term investments are stated at amortized cost.

(2) Bonds not backed by other loans are stated at amortized cost.

(3) Common stocks are stated at market except those investments in stocks of uncombined subsidiaries and affiliates in which the Company has an interest of 20% or more are carried on the statutory purchase method.

(4) Preferred Stocks: None

(5) Mortgage Loans on Real Estate are stated at the aggregate carrying value less accrued interest.

(6) Loan-backed securities are stated at the lower of fair market value or cost.

(7) Investment in Subsidiaries, Controlled or Affiliated Companies are valued using the underlying statutory equity, as adjusted, or audited GAAP equity, adjusted for certain non-admitted assets, as appropriate for each individual investment, in accordance with NAIC SAP No. 97, Investments in Subsidiary, Controlled and Affiliated Entities, A Replacement of SSAP No. 88. The net change in the subsidiaries' equity is included in the change in net unrealized capital gains or losses.

(8) Interest in Joint Ventures: None

(9) Derivatives: None

(10) The Company does not utilize anticipated investment income as a factor in premium deficiency calculations

(11) Unpaid losses and loss adjustment expense are determined on the individual claim level and are based on management's best estimate of ultimate losses and loss adjustment expenses more likely than not to be incurred in administering the claim. Such liabilities are necessarily based on assumptions and estimates. While management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liability are continually reviewed and any adjustments are reflected in the period determined.

(12) Changes in Capitalization Policy: Not applicable

(13) Pharmaceutical Rebate Receivables: None

20. Fair Value Measurements

A. The Fair Values Measurements and Disclosures Topic of the FASB ASC defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous, market for the asset or liability in an orderly transaction between market participants at the measurement date. The Fair Values Measurements Topic establishes a three-level fair value hierarchy that prioritizes the inputs used to measure fair value. This hierarchy requires entities to maximize the use of observable inputs when possible. The three levels of inputs used to measure fair value are as follows:

- Level 1 – quoted prices in active markets for identical assets or liabilities;
- Level 2 – observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active: or other inputs that are observable or can be corroborated by observable market data; and
- Level 3 – unobservable inputs that are supported by little or no market activity and that are significant to the fair values of the assets or liabilities, including certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

(3) No transfers into or out of Level 3 occurred during the twelve months ended December 31, 2023.

(4) As of December 31, 2023, the reported fair value of the Company's investment in Level 3 common stock includes 305 shares of common stock Federal Home Loan Bank of Des Moines ("FHLB") consisting of membership shares with the FHLB at $100 par value. Privately held securities are valued at the last transaction price closest to the balance sheet date. Fair values of issues traded on public exchanges are based on the market price in such exchanges at the balance sheet date. The fair values of cash and short-term investments consist of certificates of deposits, money market savings accounts carried at cost which approximates fair value. Mortgage loans on real estate and other invested assets are established utilizing comparable prices for similar assets in active and inactive markets or other inputs that are observable or can be corroborated by observable market data.

Statement of Actuarial Opinion

IDENTIFICATION

I, Dawn Fowle, am a Fellow of the Casualty Actuarial Society, a member of the American Academy of Actuaries, and I am associated with the firm of Ernst & Young LLP. I meet the qualification standards of the American Academy of Actuaries for Statements of Actuarial Opinion for the Title Annual Statement.

I was appointed by the Board of Directors of Agents National Title Insurance Company (the "Company") on February 26, 2024, to provide this opinion for purposes of satisfying the requirements of the NAIC Title Annual Statement Instructions. The intended users of this opinion are Company management, its Board of Directors, and state insurance department regulators.

SCOPE

I have reviewed the December 31, 2023, loss and loss adjustment expense reserves recorded under U.S. Statutory Accounting Principles, listed in Exhibit A and included in the 2023 statutory-basis Annual Statement of the Company as filed with the Missouri Department of Commerce and Insurance. Those loss and loss adjustment expense reserves are the responsibility of the Company's management; my responsibility is to express an opinion on those loss and loss adjustment expense reserves based on my review.

My review of the Company's reserves was conducted in accordance with standards established by the Actuarial Standards Board. My review included the use of such actuarial assumptions and methods, and such tests of the actuarial calculations as I considered necessary in the circumstances. My review considered information provided to me through the date of this opinion.

The reserves listed in Exhibit A, where applicable, reflect Disclosure items (disclosures 8 through 14) in Exhibit B.

In my review, I have relied on listings and other relevant data, prepared by Veronica Bullock, Statutory Accounting Manager of the Company. I evaluated that data for reasonableness and consistency. I also reconciled that data to Schedule P-Parts 1 and 2 of the Company's 2023 Annual Statement.

I have not reviewed the Company's statutory premium reserves.

I have not reviewed any of the Company's assets nor have I formed any opinion as to their validity or value; the following opinion is based on the assumption that the Company's December 31, 2023, statutory-basis reserves identified herein are funded by valid assets that have suitably scheduled maturities and/or adequate liquidity to meet cash flow requirements.

OPINION

In my opinion, based on the foregoing procedures, the Company's December 31, 2023, statutory-basis loss and loss adjustment expense reserves identified in Exhibit A:

- Make a reasonable provision in the aggregate for all unpaid losses and loss adjustment expenses, gross and net as to reinsurance ceded, under the terms of the Company's contracts and agreements.

- Are consistent with estimates of unpaid losses and loss adjustment expenses computed in accordance with standards established by the Actuarial Standards Board.

- Meet the requirements of the insurance laws of Missouri.

RELEVANT COMMENTS

Materiality standard

In order to establish my materiality standard, for purposes of addressing the risk of material adverse deviation of the Company's reserves for unpaid losses and loss adjustment expenses, I have considered the following amounts:

(1)	10% of the Company's net loss + loss adjustment expense reserves (10%of Exhibit A, Item 1.) at December 31, 2023	$1,384,300
(2)	20%of the Company's surplus at December 31, 2023	$11,477,747
(3)	The difference between the Company's statutory premium reserve at December 31, 2023 and the Company's net Schedule P loss + loss adjustment expense reserves	$6,286,568

My materiality standard, for purposes of preparing the analysis in support of this Statement of Actuarial Opinion, was established at $6,286,568, which is the middle of the foregoing amounts. The smallest of the foregoing calculated amounts was not used as my materiality threshold given that deviation of this amount would not impact the Company's surplus.

General uncertainty

The loss and loss adjustment expense reserves listed in Exhibit A represent the estimates made by the Company's management for all unpaid losses and related loss adjustment expenses as of December 31, 2023, gross and net as to reinsurance ceded; considerable uncertainty and variability are inherent in such estimates, and, accordingly, the subsequent development of those estimates may not conform to the assumptions inherent in their determination and, therefore, may vary from the reserve amounts listed in Exhibit A.

The underlying nature of Title insurance business is complex and includes additional uncertainty when compared to property and casualty liabilities due to the following factors:

- Length of reporting patterns
- Uncertainty with respect to duration of coverage
- Large policy limits, especially for commercial accounts
- Increased complexity in settling title claims introduces additional volatility

Also, Title insurance business is sensitive to economic conditions, both current and future, as changes to these conditions could change the frequency of title claims. Some of the key economic factors that affect the frequency of title insurance claims are:

- Interest rates
- Unemployment rate
- Real Estate values
- Availability of Credit

Company-specific risk factors

The following provides major factors and/or particular conditions underlying the risks and uncertainties that I consider relevant to the Company's estimates of unpaid losses and loss adjustment expenses at December 31, 2023:

➢ **Economic inflation**

The global economy has been impacted by increasing prices in consumer goods and services following the COVID-19 pandemic. The title insurance industry is impacted by these inflationary pressures given the correlation between inflation and changes in interest rates, unemployment rates, real estate values and availability of credit. The impact of higher inflation rates presents additional uncertainty with respect to the ultimate cost of claims, and therefore the recorded loss and loss adjustment expense reserves as of December 31, 2023.

- **Recent growth**

  The Company's net written premium has increased significantly since 2017 with expansion from six states to over thirty states. Such growth could bring changes in the quality of the agents or in the risks insured as well as impact the historical claim emergence patterns and profitability. The Company does not have a complete loss development history and its premium and claim volume is limited, particularly with respect to the states entered since 2017. The rapid growth of the Company's exposure and the higher latency associated with Title insurance claims in general increases the inherent uncertainty of the Company's unpaid claim estimates.

  We have supplemented our analysis with title industry benchmarks, which creates additional uncertainty in our analysis.

The absence of other risk factors or particular conditions from this opinion does not imply that additional factors or conditions will not be identified in the future as having contributed to significant uncertainty in the Company's estimates of unpaid losses and loss adjustment expenses.

Material adverse deviation

In my analysis I considered the aforementioned risk factor and the implications of uncertainty in estimates of unpaid losses and loss adjustment expenses in determining a range of reasonable unpaid claim estimates. I have also observed that the difference between the Company's carried reserves for losses and loss adjustment expenses and the higher end of my range of reasonable unpaid claim estimates is less than my materiality standard. I further considered whether there are significant risks and uncertainties that could result in material adverse deviation. In light of these considerations, I concluded that those risks and uncertainties would not reasonably be expected to contribute to material adverse deviation in the Company's carried reserves for unpaid losses and loss adjustment expenses.

Anticipated salvage and subrogation

The Company's management has informed me that the Company does not reduce case reserves to reflect anticipated salvage and subrogation recoveries. However, the paid data underlying the analysis used to develop IBNR reserve estimates are net of collected salvage and subrogation recoveries. As such, the IBNR reserve estimate (and therefore the reserve listed in Exhibit A) includes an implicit provision for the expected value of future salvage and subrogation recoveries on open and IBNR claims.

Discounting

The Company's management has informed me that it does not discount the reserves listed in Exhibit A for the time value of money.

Retroactive or financial reinsurance

I have been informed by the Company's management that it is not aware of any reinsurance contract that either has been or should have been accounted for as retroactive reinsurance or financial reinsurance.

Uncollectable reinsurance

I have been informed by the Company's management that it is not aware of any significant uncollectable reinsurance. In my review, I have requested information from management on uncollectable reinsurance, reviewed the latest available financial ratings of reinsurers by a recognized rating service, and reviewed Schedule F for indications of regulatory actions or reinsurance recoverables on paid losses over 90 days past due. I express no opinion on the financial condition of the Company's reinsurers.

Reserve Development

I have reviewed the Company's calculations of One Year Reserve Development to Surplus and Two-Year Reserve Development to Surplus. No exceptional values were noted with respect to the Company's December 31, 2023 loss and loss adjustment expense reserve tests.

*   *   *

An actuarial report supporting this actuarial opinion is to be provided to the Company to be retained for a period of seven years at its administrative offices and to be available for regulatory examination.

My review related only to those reserves identified herein, and I do not express an opinion on the Company's financial statements taken as a whole.

This opinion was prepared solely for the Company for the purpose of filing with regulatory agencies and is not intended for any other purpose.
