Unless the context otherwise indicates or requires, the terms “we,” “our,” “us,” “Essent,” and the “Company,” as used in this Quarterly Report on Form 10-Q, refer to Essent Group Ltd. and its directly and indirectly owned subsidiaries, including our primary operating subsidiaries, Essent Guaranty, Inc. and Essent Reinsurance Ltd., as a combined entity, except where otherwise stated or where it is clear that the terms mean only Essent Group Ltd. exclusive of its subsidiaries.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q, or Quarterly Report, includes forward-looking statements pursuant to the “safe harbor” provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking statements relate to expectations, beliefs, projections, future plans and strategies, anticipated events or trends and similar expressions concerning matters that are not historical facts or present facts or conditions, such as statements regarding our future financial condition or results of operations, our prospects and strategies for future growth, the introduction of new products and services, and the implementation of our marketing and branding strategies. In many cases, you can identify forward-looking statements by terms such as “may,” “will,” “should,” “expects,” “plans,” “anticipates,” “believes,” “estimates,” “predicts,” “potential” or the negative of these terms or other comparable terminology.

The forward-looking statements contained in this Quarterly Report reflect our views as of the date of this Quarterly Report about future events and are subject to risks, uncertainties, assumptions and changes in circumstances that may cause events or our actual activities or results to differ significantly from those expressed in any forward-looking statement. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future events, results, actions, levels of activity, performance or achievements. A number of important factors could cause actual results to differ materially from those indicated by the forward-looking statements, including, but not limited to, those factors described below, in Part I, Item 2 “Management’s Discussion and Analysis of Financial Condition and Results of Operations” of this Quarterly Report, and in Part I, Item 1A “Risk Factors” of our Annual Report on Form 10-K for the year ended December 31, 2016 filed with the Securities and Exchange Commission. These factors include, without limitation, the following:

- changes in or to Fannie Mae and Freddie Mac, which we refer to collectively as the GSEs, whether through Federal legislation, restructurings or a shift in business practices;
- failure to continue to meet the mortgage insurer eligibility requirements of the GSEs;
- competition for our customers or the loss of a significant customer;
- lenders or investors seeking alternatives to private mortgage insurance;
- increase in the number of loans insured through Federal government mortgage insurance programs, including those offered by the Federal Housing Administration;
- decline in the volume of low down payment mortgage originations;
- uncertainty of loss reserve estimates;
- decrease in the length of time our insurance policies are in force;
- deteriorating economic conditions;
- the definition of “Qualified Mortgage” reducing the size of the mortgage origination market or creating incentives to use government mortgage insurance programs;
- the definition of “Qualified Residential Mortgage” reducing the number of low down payment loans or lenders and investors seeking alternatives to private mortgage insurance;
- the implementation of the Basel III Capital Accord, which may discourage the use of private mortgage insurance;
- management of risk in our investment portfolio;
- fluctuations in interest rates;
- inadequacy of the premiums we charge to compensate for our losses incurred;

- dependence on management team and qualified personnel;
- disturbance to our information technology systems;
- change in our customers' capital requirements discouraging the use of mortgage insurance;
- declines in the value of borrowers' homes;
- limited availability of capital;
- unanticipated claims arise under and risks associated with our contract underwriting program;
- industry practice that loss reserves are established only upon a loan default;
- disruption in mortgage loan servicing;
- risk of future legal proceedings;
- customers' technological demands;
- our non-U.S. operations becoming subject to U.S. Federal income taxation;
- becoming considered a passive foreign investment company for U.S. Federal income tax purposes; and
- potential inability of our insurance subsidiaries to pay dividends.

Readers are urged to consider these factors carefully in evaluating the forward-looking statements and are cautioned not to place undue reliance on these forward-looking statements. All of the forward-looking statements we have included in this Quarterly Report are based on information available to us on the date of this Quarterly Report. We undertake no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events or otherwise, except as otherwise required by law.

Essent Group Ltd. and Subsidiaries

Notes to Condensed Consolidated Financial Statements (Unaudited)

In these notes to condensed consolidated financial statements, “Essent”, “Company”, “we”, “us”, and “our” refer to Essent Group Ltd. and its subsidiaries, unless the context otherwise requires.

Note 1. Nature of Operations and Basis of Presentation

Essent Group Ltd. (“Essent Group”) is a Bermuda-based holding company, which, through its wholly-owned subsidiaries, offers private mortgage insurance and reinsurance for mortgages secured by residential properties located in the United States. Mortgage insurance facilitates the sale of low down payment (generally less than 20%) mortgage loans into the secondary mortgage market, primarily to two government-sponsored enterprises (“GSEs”), Fannie Mae and Freddie Mac.

The primary mortgage insurance operations are conducted through Essent Guaranty, Inc. (“Essent Guaranty”), a wholly-owned subsidiary approved as a qualified mortgage insurer by the GSEs and is licensed to write mortgage insurance in all 50 states and the District of Columbia. Essent Guaranty reinsures 25% of GSE-eligible new insurance written to Essent Reinsurance Ltd. (“Essent Re”), an affiliated Bermuda domiciled Class 3A Insurer licensed pursuant to Section 4 of the Bermuda Insurance Act 1978 that provides insurance and reinsurance coverage of mortgage credit risk. Essent Re also provides insurance and reinsurance to Freddie Mac and Fannie Mae. In 2016, Essent Re formed Essent Agency (Bermuda) Ltd., a wholly-owned subsidiary, which provides underwriting services to third-party reinsurers. In accordance with certain state law requirements, Essent Guaranty also reinsures that portion of the risk that is in excess of 25% of the mortgage balance with respect to any loan insured, after consideration of other reinsurance, to Essent Guaranty of PA, Inc. (“Essent PA”), an affiliate.

In addition to offering mortgage insurance, we provide contract underwriting services on a limited basis through CUW Solutions, LLC (“CUW Solutions”), a Delaware limited liability company, that provides, among other things, mortgage contract underwriting services to lenders and mortgage insurance underwriting services to affiliates.

We have prepared the condensed consolidated financial statements included herein pursuant to the rules and regulations of the Securities and Exchange Commission (“SEC”). We have condensed or omitted certain information and footnote disclosures normally included in consolidated financial statements prepared in accordance with U.S. generally accepted accounting principles (“GAAP”) pursuant to such rules and regulations. In the opinion of management, the statements include all adjustments (which include normal recurring adjustments) required for a fair statement of financial position, results of operations and cash flows for the interim periods presented. These statements should be read in conjunction with the consolidated financial statements and notes thereto, including Note 1 and Note 2 to the consolidated financial statements, included in our Annual Report on Form 10-K for the year ended December 31, 2016, which discloses the principles of consolidation and a summary of significant accounting policies. The results of operations for the interim periods are not necessarily indicative of the results for the full year. We evaluated the need to recognize or disclose events that occurred subsequent to March 31, 2017 prior to the issuance of these condensed consolidated financial statements.

Certain amounts in prior years have been reclassified to conform to the current year presentation.

Note 2. Recently Issued Accounting Standards

In May 2014, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) ASU 2014-09, *Revenue from Contracts with Customers (Topic 606)*. This update is intended to provide a consistent approach in recognizing revenue. In accordance with the new standard, recognition of revenue occurs when a customer obtains control of promised goods or services in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. In addition, the new standard requires that reporting companies disclose the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers. In July 2015, the FASB delayed the effective date for this update to interim and annual periods beginning after December 15, 2017. In December 2016, the FASB clarified that all contracts that are within the scope of Topic 944, *Financial Services-Insurance*, are excluded from the scope of ASU 2014-09. Accordingly, this update will not impact the recognition of revenue related to insurance premiums or investments, which represent a significant portion of our total revenues. The adoption of this ASU is not expected to have a material effect on the Company’s consolidated operating results or financial position.

Notes to Condensed Consolidated Financial Statements (Unaudited)

In February 2016, the FASB issued ASU 2016-02, *Leases (Topic 842)*. This update will require organizations that lease assets to recognize on the balance sheet the assets and liabilities for the rights and obligations created by those leases. The new guidance will also require additional disclosures about the amount, timing and uncertainty of cash flows arising from leases. The provisions of this update are effective for annual and interim periods beginning after December 15, 2018. The Company expects a gross-up of its consolidated balance sheets as a result of recognizing lease liabilities and right of use assets. The Company is still evaluating the impact the adoption of this ASU will have on the consolidated financial statements.

In March 2016, the FASB issued ASU 2016-09, *Improvements to Employee Share-Based Payment Accounting (Topic 718)*. This update is intended to simplify several aspects of the accounting for share-based payment award transactions, including the income tax consequences, classification of awards as either equity or liabilities, and classification on the statement of cash flows. The new guidance requires all excess tax benefits and tax deficiencies to be recognized as income tax expense or benefit in the income statement and treated as discrete items in the reporting period. In addition, excess tax benefits are required to be classified along with other income tax cash flows as an operating activity. Further, the new guidance allows for a policy election to account for forfeitures as they occur rather than on an estimated basis. The Company adopted this ASU on January 1, 2017 and recorded a charge of \$0.1 million to retained earnings as of that date representing a cumulative-effect adjustment associated with our election to recognize forfeitures as they occur. The classification of excess tax benefits and tax deficiencies as income tax benefit or expense may result in net income volatility in reporting periods subsequent to 2016. Through December 31, 2016, excess tax benefits were recognized in additional paid-in-capital. In the three months ended March 31, 2017, the Company recorded excess tax benefits of \$3.0 million as a reduction of income tax expense. The amount of excess tax benefits or tax deficiencies in future periods will vary based on the market value of the Company's common stock at the vesting dates of nonvested common share and nonvested common share units.

In June 2016, the FASB issued ASU 2016-13, *Measurement of Credit Losses on Financial Instruments (Topic 326)*. This update is intended to provide financial statement users with more information about the expected credit losses on financial instruments and other commitments to extend credit held by a reporting entity at each reporting date. The amendments in this ASU replace the incurred loss impairment methodology in current GAAP with a methodology that reflects expected credit losses and requires consideration of a broader range of reasonable and supportable information to inform credit loss estimates. The new guidance requires financial assets measured at amortized cost to be presented at the net amount expected to be collected through the use of an allowance for credit losses. Credit losses relating to available-for-sale debt securities will also be recorded through an allowance rather than as a write-down of the amortized cost of the securities. The provisions of this update are effective for annual and interim periods beginning after December 15, 2019. While the Company is still evaluating this ASU, we do not expect it to impact our accounting for insurance losses and loss adjustment expenses ("LAE") as these items are not within the scope of this ASU.

Note 3. Investments Available for Sale

Investments available for sale consist of the following:

Essent Group Ltd. and Subsidiaries

Notes to Condensed Consolidated Financial Statements (Unaudited)

The amortized cost and fair value of investments available for sale at March 31, 2017, by contractual maturity, are shown below. Expected maturities will differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties. Because most U.S. agency mortgage-backed securities, residential and commercial mortgage securities and asset-backed securities provide for periodic payments throughout their lives, they are listed below in separate categories.

(In thousands)	Amortized Cost	Fair Value
U.S. Treasury securities:		
Due in 1 year	\$ 24,778	\$ 24,767

The gross unrealized losses on these investment securities are principally associated with the changes in market interest rates and credit spreads subsequent to their purchase. Each issuer is current on its scheduled interest and principal payments. We assess our intent to sell these securities and whether we will be required to sell these securities before the recovery of their amortized cost basis when determining whether an impairment is other-than-temporary. There were no other-than-temporary impairments in the three months ended March 31, 2017. We recorded an other-than-temporary impairment of \$7 thousand in the three months ended March 31, 2016 on a security in an unrealized loss position. The impairment resulted from our intent to sell the security subsequent to the reporting date.

The fair value of investments deposited with insurance regulatory authorities to meet statutory requirements was \$8.5 million as of March 31, 2017 and December 31, 2016. In connection with its insurance and reinsurance activities, Essent Re is required to maintain assets in trusts for the benefit of its contractual counterparties. The fair value of the investments on deposit in these trusts was \$406.9 million at March 31, 2017 and \$349.6 million at December 31, 2016.

Net investment income consists of:

	Three Months Ended March 31,	
(In thousands)	2017	2016
Fixed maturities	\$ 9,019	\$ 6,655
Short-term investments	59	33
Gross investment income	9,078	6,688
Investment expenses	(643)	(505)
Net investment income	<u>\$ 8,435</u>	<u>\$ 6,183</u>

Notes to Condensed Consolidated Financial Statements (Unaudited)
Note 4. Reserve for Losses and Loss Adjustment Expenses

The following table provides a reconciliation of the beginning and ending reserve balances for losses and loss adjustment expenses (“LAE”) for the three months ended March 31:

(\$ in thousands)	2017	2016
Reserve for losses and LAE at beginning of period	\$ 28,142	\$ 17,760
Less: Reinsurance recoverables	—	—
Net reserve for losses and LAE at beginning of period	28,142	17,760
Add provision for losses and LAE, net of reinsurance, occurring in:		
Current period	7,090	5,080
Prior years	(3,397)	(1,349)
Net incurred losses during the current period	3,693	3,731
Deduct payments for losses and LAE, net of reinsurance, occurring in:		
Current period	1	1
Prior years	2,366	1,020
Net loss and LAE payments during the current period	2,367	1,021
Net reserve for losses and LAE at end of period	29,468	20,470
Plus: Reinsurance recoverables	—	—
Reserve for losses and LAE at end of period	\$ 29,468	\$ 20,470
Loans in default at end of period	1,777	1,060

For the three months ended March 31, 2017, \$2.4 million was paid for incurred claims and claim adjustment expenses attributable to insured events of prior years. There has been a \$3.4 million favorable prior year development during the three months ended March 31, 2017. Reserves remaining as of March 31, 2017 for prior years are \$22.4 million as a result of re-estimation of unpaid losses and loss adjustment expenses. For the three months ended March 31, 2016, \$1.0 million was paid for incurred claims and claim adjustment expenses attributable to insured events of prior years. There was a \$1.3 million favorable prior year development during the three months ended March 31, 2016. Reserves remaining as of March 31, 2016 for prior years were \$15.4 million as a result of re-estimation of unpaid losses and loss adjustment expenses. In both periods, the favorable prior years' loss development was the result of a re-estimation of amounts ultimately to be paid on prior year defaults in the default inventory, including the impact of previously identified defaults that cured. Original estimates are increased or decreased as additional information becomes known regarding individual claims.

Note 5. Debt Obligations
Revolving Credit Facility

On April 19, 2016, Essent Group and its subsidiaries, Essent Irish Intermediate Holdings Limited and Essent US Holdings, Inc. (collectively, the "Borrowers"), entered into a three-year, secured revolving credit facility with a committed capacity of \$200 million (the “Facility”). Borrowings under the Facility may be used for working capital and general corporate purposes, including, without limitation, capital contributions to Essent’s insurance and reinsurance subsidiaries. Borrowings accrue interest at a floating rate tied to a standard short-term borrowing index, selected at the Company’s option, plus an applicable margin. A commitment fee is due quarterly on the average daily amount of the undrawn revolving commitment. The applicable margin and the commitment fee are based on the senior unsecured debt rating or long-term issuer rating of Essent Group to the extent available, or the insurer financial strength rating of Essent Guaranty. The current annual commitment fee rate is 0.35%. The obligations under the Facility are secured by certain assets of the Borrowers, excluding the stock and assets of its insurance and reinsurance subsidiaries. The Facility contains several covenants, including financial covenants relating to minimum net worth, capital and liquidity levels, maximum debt to capitalization level and Essent Guaranty's compliance with the PMIERS (see Note 11). This description is not intended to be complete in all respects and is qualified in its entirety by the terms of the Facility, including its covenants. As of March 31, 2017, the Company was in compliance with the covenants and \$125 million had been borrowed under the Facility with a weighted average interest rate of 2.96%.

Notes to Condensed Consolidated Financial Statements (Unaudited)
Note 6. Commitments and Contingencies
Obligations under Guarantees

Under the terms of CUW Solutions' contract underwriting agreements with lenders and subject to contractual limitations on liability, we agree to indemnify certain lenders against losses incurred in the event that we make an error in determining whether loans processed meet specified underwriting criteria, to the extent that such error materially restricts or impairs the salability of such loan, results in a material reduction in the value of such loan or results in the lender repurchasing the loan. The indemnification may be in the form of monetary or other remedies. We paid \$4,775 and \$0 related to remedies for the three months ended March 31, 2017 and 2016, respectively. As of March 31, 2017, management believes any potential claims for indemnification related to contract underwriting services through March 31, 2017 are not material to our consolidated financial position or results of operations.

In addition to the indemnifications discussed above, in the normal course of business, we enter into agreements or other relationships with third parties pursuant to which we may be obligated under specified circumstances to indemnify the counterparties with respect to certain matters. Our contractual indemnification obligations typically arise in the context of agreements entered into by us to, among other things, purchase or sell services, finance our business and business transactions, lease real property and license intellectual property. The agreements we enter into in the normal course of business generally require us to pay certain amounts to the other party associated with claims or losses if they result from our breach of the agreement, including the inaccuracy of representations or warranties. The agreements we enter into may also contain other indemnification provisions that obligate us to pay amounts upon the occurrence of certain events, such as the negligence or willful misconduct of our employees, infringement of third-party intellectual property rights or claims that performance of the agreement constitutes a violation of law. Generally, payment by us under an indemnification provision is conditioned upon the other party making a claim, and typically we can challenge the other party's claims. Further, our indemnification obligations may be limited in time and/or amount, and in some instances, we may have recourse against third parties for certain payments made by us under an indemnification agreement or obligation. As of March 31, 2017, contingencies triggering material indemnification obligations or payments have not occurred historically and are not expected to occur. The nature of the indemnification provisions in the various types of agreements and relationships described above are believed to be low risk and pervasive, and we consider them to have a remote risk of loss or payment. We have not recorded any provisions on the condensed consolidated balance sheets related to indemnifications.

Note 7. Stock-Based Compensation

The following table summarizes nonvested common share and nonvested common share unit activity for the three months ended March 31, 2017:

(Shares in thousands)	Time and Performance-Based Share Awards		Time-Based Share Awards		Share Units	
	Number of Shares	Weighted Average Grant Date Fair Value	Number of Shares	Weighted Average Grant Date Fair Value	Number of Share Units	Weighted Average Grant Date Fair Value
Outstanding at beginning of year	1,503	\$ 15.41	605	\$ 16.32	493	\$ 19.24
Granted	140	36.29	91	36.29	366	33.21
Vested	(48)	22.48	(264)	16.56	(253)	18.40
Forfeited	—	N/A	—	N/A	(8)	28.53
Outstanding at March 31, 2017	1,595	\$ 17.03	432	\$ 20.35	598	\$ 28.02

In February 2017, certain members of senior management were granted nonvested common shares under the Essent Group Ltd. 2013 Long-Term Incentive Plan ("2013 Plan") that were subject to time-based and performance-based vesting. The time-based share awards granted in February 2017 vest in three equal installments on March 1, 2018, 2019 and 2020. The performance-based share awards granted in February 2017 vest based upon our compounded annual book value per share growth percentage during a three-year performance period that commenced on January 1, 2017 and vest on March 1, 2020. The portion of the nonvested performance-based share awards that will be earned based upon the achievement of compounded annual book value per share growth is as follows:

Essent Group Ltd. and Subsidiaries

Notes to Condensed Consolidated Financial Statements (Unaudited)

Performance level	Compounded Annual Book Value Per Share Growth	Nonvested Common Shares Earned
	<16%	0%
Threshold	16%	25%
	17%	50%
	18%	75%
Maximum	≥19%	100%

In the event that the compounded annual book value per share growth falls between the performance levels shown above, the nonvested common shares earned will be determined on a straight-line basis between the respective levels shown.

In January 2017, time-based share units were issued to all vice president and staff level employees and vest in three equal installments on January 2018, 2019, and 2020. In connection with our incentive program covering bonus awards for performance year 2016, in February 2017, time-based share awards and share units were issued to certain employees that vest in three equal installments on March 1, 2018, 2019 and 2020. In May 2017, 21,021 time-based share units were granted to non-employee directors that vest one year from the date of grant.

Amendments to our 2013 Plan were approved by shareholders and effective as of May 3, 2017. These amendments included a reduction in the maximum number of shares and share units available for issuance to 7.5 million under the Amended and Restated 2013 Plan (inclusive of approximately 2.6 million nonvested shares and share units outstanding as of May 3, 2017), down from the approximately 14.7 million maximum number of shares and share units available for issuance under the 2013 Plan.

The total fair value on the vesting date of nonvested shares or share units that vested was \$19.0 million and \$11.9 million for the three months ended March 31, 2017 and 2016, respectively. As of March 31, 2017, there was \$32.0 million of total unrecognized compensation expense related to nonvested shares or share units outstanding at March 31, 2017 and we expect to recognize the expense over a weighted average period of 2.2 years.

Employees have the option to tender shares to Essent Group to pay the minimum employee statutory withholding taxes associated with shares upon vesting. Common shares tendered by employees to pay employee withholding taxes totaled 211,412 in the three months ended March 31, 2017. The tendered shares were recorded at cost and included in treasury stock. All treasury stock has been cancelled as of March 31, 2017.

Compensation expense, net of forfeitures, and related tax effects recognized in connection with nonvested shares was as follows:

(In thousands)	Three Months Ended March 31,	
	2017	2016
Compensation expense	\$ 4,619	\$ 3,782
Income tax benefit	1,483	1,212

Notes to Condensed Consolidated Financial Statements (Unaudited)
Note 8. Earnings per Share (EPS)

The following table reconciles the net income and the weighted average common shares outstanding used in the computations of basic and diluted earnings per common share:

(In thousands, except per share amounts)	Three Months Ended March 31,	
	2017	2016
Net income	\$ 66,598	\$ 47,951
Less: dividends declared	—	—
Net income available to common shareholders	\$ 66,598	\$ 47,951
Basic earnings per share	\$ 0.73	\$ 0.53
Diluted earnings per share	\$ 0.72	\$ 0.52
Basic weighted average shares outstanding	91,258	90,785
Dilutive effect of nonvested shares	1,765	1,074
Diluted weighted average shares outstanding	93,023	91,859

There were 162,930 and 347,611 antidilutive shares for the three months ended March 31, 2017 and 2016, respectively.

The nonvested performance-based share awards are considered contingently issuable for purposes of the EPS calculation. Based on the compounded annual book value per share growth as of March 31, 2017 and 2016, 100% of the dilutive performance-based share awards would be issuable under the terms of the arrangements at each date if March 31 was the end of the contingency period.

Note 9. Accumulated Other Comprehensive Income (Loss)

The following table presents the rollforward of accumulated other comprehensive income (loss) for the three months ended March 31, 2017 and 2016:

(In thousands)	Three Months Ended March 31, 2017		
	Before Tax	Tax Effect	Net of Tax
Balance at beginning of period	\$ (14,436)	\$ 2,181	\$ (12,255)
Other comprehensive income (loss):			
Unrealized holding gains arising during the period	7,566	(2,289)	5,277
Less: Reclassification adjustment for gains included in net income (1)	(655)	228	(427)
Net unrealized gains on investments	6,911	(2,061)	4,850
Other comprehensive income	6,911	(2,061)	4,850
Balance at end of period	\$ (7,525)	\$ 120	\$ (7,405)

Notes to Condensed Consolidated Financial Statements (Unaudited)

(In thousands)	Three Months Ended March 31, 2016		
	Before Tax	Tax Effect	Net of Tax
Balance at beginning of period	\$ 661	\$ (760)	\$ (99)
Other comprehensive income (loss):			
Unrealized holding gains arising during the period	19,551	(5,845)	13,706
Less: Reclassification adjustment for gains included in net income (1)	(478)	131	(347)
Net unrealized gains on investments	19,073	(5,714)	13,359
Other comprehensive income	19,073	(5,714)	13,359
Balance at end of period	\$ 19,734	\$ (6,474)	\$ 13,260

(1) Included in net realized investment gains on our condensed consolidated statements of comprehensive income.

Note 10. Fair Value of Financial Instruments

We carry certain of our financial instruments at fair value. We define fair value as the current amount that would be exchanged to sell an asset or transfer a liability, other than in a forced liquidation.

Fair Value Hierarchy

ASC No. 820 specifies a hierarchy of valuation techniques based on whether the inputs to those valuation techniques are observable or unobservable. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect our market assumptions. The level within the fair value hierarchy to measure the financial instrument shall be determined based on the lowest level input that is significant to the fair value measurement. The three levels of the fair value hierarchy are as follows:

- Level 1 — Quoted prices for identical instruments in active markets accessible at the measurement date.
- Level 2 — Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and valuations in which all significant inputs are observable in active markets. Inputs are observable for substantially the full term of the financial instrument.
- Level 3 — Valuations derived from one or more significant inputs that are unobservable.

Determination of Fair Value

When available, we generally use quoted market prices to determine fair value and classify the financial instrument in Level 1. In cases where quoted market prices for similar financial instruments are available, we utilize these inputs for valuation techniques and classify the financial instrument in Level 2. In cases where quoted market prices are not available, fair values are based on estimates using discounted cash flows, present value or other valuation techniques. Those techniques are significantly affected by the assumptions used, including the discount rates and estimates of future cash flows and we classify the financial instrument in Level 3. Accordingly, the fair value estimates may not be realized in an immediate settlement of the instrument.

We used the following methods and assumptions in estimating fair values of financial instruments:

- Investments available for sale — Investments available for sale are valued using quoted market prices in active markets, when available, and those investments are classified as Level 1 of the fair value hierarchy. Level 1 investments available for sale include investments such as U.S. Treasury securities and money market funds. Investments available for sale are classified as Level 2 of the fair value hierarchy if quoted market prices are not available and fair values are estimated using quoted prices of similar securities or recently executed transactions for the securities. U.S. agency securities, U.S. agency mortgage-backed securities, municipal debt securities, corporate

Notes to Condensed Consolidated Financial Statements (Unaudited)

debt securities, residential and commercial mortgage securities and asset-backed securities are classified as Level 2 investments.

We use independent pricing sources to determine the fair value of securities available for sale in Level 1 and Level 2 of the fair value hierarchy. We use one primary pricing service to provide individual security pricing based on observable market data and receive one quote per security. To ensure securities are appropriately classified in the fair value hierarchy, we review the pricing techniques and methodologies of the independent pricing service and believe that their policies adequately consider market activity, either based on specific transactions for the issue valued or based on modeling of securities with similar credit quality, duration, yield and structure that were recently traded. U.S. agency securities, U.S. agency residential and commercial mortgage securities, municipal and corporate debt securities are valued by our primary vendor using recently executed transactions and proprietary models based on observable inputs, such as interest rate spreads, yield curves and credit risk. Residential and commercial mortgage securities and asset-backed securities are valued by our primary vendor using proprietary models based on observable inputs, such as interest rate spreads, prepayment speeds and credit risk. As part of our evaluation of investment prices provided by our primary pricing service, we obtained and reviewed their pricing methodologies which include a description of how each security type is evaluated and priced. We review the reasonableness of prices received from our primary pricing service by comparison to prices obtained from additional pricing sources. We have not made any adjustments to the prices obtained from our primary pricing service.

- Derivative liabilities — Through June 30, 2016, certain of our Freddie Mac Agency Credit Insurance Structure ("ACIS") contracts were accounted for as derivatives. In determining an exit market, we considered the fact that there is not a principal market for these contracts. In the absence of a principal market, we valued these ACIS contracts in a hypothetical market where market participants, and potential counterparties, included other mortgage guaranty insurers or reinsurers with similar credit quality to us. We believed that in the absence of a principal market, this hypothetical market provides the most relevant information with respect to fair value estimates. These ACIS contracts were classified as Level 3 of the fair value hierarchy. During the quarter ended September 30, 2016, these contracts were amended and are now accounted for as insurance contracts rather than derivatives.

Through June 30, 2016, we determined the fair value of our derivative instruments primarily using internally-generated models. We utilized market observable inputs, such as the performance of the underlying pool of mortgages, mortgage prepayment speeds and pricing spreads on the reference STACR notes issued by Freddie Mac, whenever they were available. There was a high degree of uncertainty about our fair value estimates since our contracts were not traded or exchanged, which made external validation and corroboration of our estimates difficult. Considerable judgment was required to interpret market data to develop the estimates of fair value. Accordingly, the estimates may not have been indicative of amounts we could have realized in a market exchange or negotiated termination. The use of different market assumptions or estimation methodologies may have had a material effect on the estimated fair value amounts.

Essent Group Ltd. and Subsidiaries

Notes to Condensed Consolidated Financial Statements (Unaudited)

Assets and Liabilities Measured at Fair Value

All assets measured at fair value are categorized in the table below based upon the lowest level of significant input to the valuations. All fair value measurements at the reporting date were on a recurring basis.

March 31, 2017 (In thousands)	Quoted Prices in Active Markets for Identical Instruments (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Recurring fair value measurements				
Financial Assets:				
U.S. Treasury securities	\$ 178,743	\$ —	\$ —	\$ 178,743
U.S. agency securities	—	26,284	—	26,284

Notes to Condensed Consolidated Financial Statements (Unaudited)

Changes in Level 3 Recurring Fair Value Measurements

The following table presents changes during the three months ended March 31, 2016 in Level 3 liabilities measured at fair value on a recurring basis, and the net realized and unrealized losses (gains) related to the Level 3 liabilities in the condensed consolidated balance sheets at March 31, 2016. During the three months ended March 31, 2017, and in the year ended December 31, 2016, we had no Level 3 assets.

	Three Months Ended March 31,
(In thousands)	2016
Level 3 Liabilities	
Fair value of derivative liabilities at beginning of period	\$ 1,232
Net realized and unrealized losses (gains) included in income	(677)
Other comprehensive (income) loss	—
Purchases, sales, issues and settlements, net	343
Gross transfers in	—
Gross transfers out	—
Fair value of derivative liabilities at end of period	\$ 898
Changes in net unrealized losses (gains) included in income on instruments held at end of period	\$ (677)

Note 11. Statutory Accounting

Our U.S. insurance subsidiaries prepare statutory-basis financial statements in accordance with the accounting practices prescribed or permitted by their respective state's department of insurance, which is a comprehensive basis of accounting other than GAAP. We did not use any prescribed or permitted statutory accounting practices (individually or in the aggregate) that resulted in reported statutory surplus or capital that was significantly different from the statutory surplus or capital that would have been reported had National Association of Insurance Commissioners' statutory accounting practices been followed. The following table presents Essent Guaranty's and Essent PA's statutory net income, statutory surplus and contingency reserve liability as of and for the three months ended March 31:

(In thousands)	2017		2016	
Essent Guaranty				
Statutory net income	\$	60,806	\$	48,486
Statutory surplus		595,102		532,199
Contingency reserve liability		525,256		353,063
Essent PA				
Statutory net income	\$	2,805	\$	3,516
Statutory surplus		43,299		44,469
Contingency reserve liability		38,219		29,898

Net income determined in accordance with statutory accounting practices differs from GAAP. In 2017 and 2016, the more significant differences between net income determined under statutory accounting practices and GAAP for Essent Guaranty and Essent PA relate to policy acquisition costs and income taxes. Under statutory accounting practices, policy acquisition costs are expensed as incurred while such costs are capitalized and amortized to expense over the life of the policy under GAAP. We are eligible for a tax deduction, subject to certain limitations for amounts required by state law or regulation to be set aside in statutory contingency reserves when we purchase non-interest-bearing United States Mortgage Guaranty Tax and Loss Bonds ("T&L Bonds") issued by the Treasury Department. Under statutory accounting practices, this deduction

Notes to Condensed Consolidated Financial Statements (Unaudited)

reduces the tax provision recorded by Essent Guaranty and Essent PA and, as a result, increases statutory net income and surplus as compared to net income and equity determined in accordance with GAAP.

At March 31, 2017 and 2016, the statutory capital of our U.S. insurance subsidiaries, which is defined as the total of statutory surplus and contingency reserves, was in excess of the statutory capital necessary to satisfy their regulatory requirements.

Effective December 31, 2015, Fannie Mae and Freddie Mac, at the direction of the Federal Housing Finance Agency ("FHFA"), implemented new coordinated Private Mortgage Insurer Eligibility Requirements, which we refer to as the "PMIERs." The PMIERs represent the standards by which private mortgage insurers are eligible to provide mortgage insurance on loans owned or guaranteed by Fannie Mae and Freddie Mac. The PMIERs include financial strength requirements incorporating a risk-based framework that require approved insurers to have a sufficient level of liquid assets from which to pay claims. The PMIERs also include enhanced operational performance expectations and define remedial actions that apply should an approved insurer fail to comply with these requirements. As of March 31, 2017 and December 31, 2016, Essent Guaranty, our GSE-approved mortgage insurance company, was in compliance with the PMIERs.

Statement of Statutory Accounting Principles No. 58, *Mortgage Guaranty Insurance*, requires mortgage insurers to establish a special contingency reserve for statutory accounting purposes included in total liabilities equal to 50% of earned premium for that year. During the three months ended March 31, 2017, Essent Guaranty increased its contingency reserve by \$44.4 million and Essent PA increased its contingency reserve by \$1.8 million. This reserve is required to be maintained for a period of 120 months to protect against the effects of adverse economic cycles. After 120 months, the reserve is released to unassigned funds. In the event an insurer's loss ratio in any calendar year exceeds 35%, however, the insurer may, after regulatory approval, release from its contingency reserves an amount equal to the excess portion of such losses. Essent Guaranty and Essent PA did not release any amounts from their contingency reserves in the three months ended March 31, 2017 or 2016.

Under The Insurance Act 1978, as amended, and related regulations of Bermuda (the "Insurance Act"), Essent Re is required to annually prepare statutory financial statements and a statutory financial return in accordance with the financial reporting provisions of the Insurance Act, which is a basis other than GAAP. The Insurance Act also requires that Essent Re maintain minimum share capital of \$1 million and must ensure that the value of its general business assets exceeds the amount of its general business liabilities by an amount greater than the prescribed minimum solvency margins and enhanced capital requirement pertaining to its general business. At December 31, 2016, all such requirements were met.

Essent Re's statutory capital and surplus was \$452.4 million as of March 31, 2017 and \$401.1 million as of December 31, 2016. Essent Re's statutory net income was \$20.2 million and \$9.4 million for the three months ended March 31, 2017 and 2016, respectively. Statutory capital and surplus as of March 31, 2017 and statutory net income in the three months ended March 31, 2017 determined in accordance with statutory accounting practices were not significantly different than the amounts determined under GAAP.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read together with the "Selected Financial Data" and our audited consolidated financial statements and related notes included in our Annual Report on Form 10-K as of and for the year ended December 31, 2016 as filed with the Securities and Exchange Commission and referred to herein as the "Annual Report," and our condensed consolidated financial statements and related notes as of and for the three months ended March 31, 2017 included in Part I, Item 1 of this Quarterly Report on Form 10-Q, which we refer to as the "Quarterly Report." In addition to historical information, this discussion contains forward-looking statements that involve risks, uncertainties and assumptions that could cause actual results to differ materially from management's expectations. Factors that could cause such differences are discussed in the sections entitled "Special Note Regarding Forward-Looking Statements" in this Quarterly Report and Part I, Item 1A "Risk Factors" in our Annual Report. We are not undertaking any obligation to update any forward-looking statements or other statements we may make in the following discussion or elsewhere in this document even though these statements may be affected by events or circumstances occurring after the forward-looking statements or other statements were made.

Except as otherwise indicated, "Market Share" means our market share as measured by our share of total new insurance written ("NIW") on a flow basis (in which loans are insured in individual, loan-by-loan transactions) in the U.S. private mortgage insurance industry, and excludes both NIW under the Home Affordable Refinance Program ("HARP" and such NIW, the "HARP NIW") and bulk insurance (in which each loan in a portfolio of loans is insured in a single transaction).

Overview

We are an established and growing private mortgage insurance company. We were formed to serve the U.S. housing finance industry at a time when the demands of the financial crisis and a rapidly changing business environment created the need for a new, privately funded mortgage insurance company. We had an estimated 15.7% Market Share for the three months ended March 31, 2017. We believe that our success in acquiring customers and growing our insurance in force has been driven by the unique opportunity we offer lenders to partner with a well-capitalized mortgage insurer, unencumbered by business originated prior to the financial crisis, that provides fair and transparent claims payment practices, and consistency and speed of service.

In 2010, Essent became the first private mortgage insurer to be approved by the GSEs since 1995, and we are licensed to write coverage in all 50 states and the District of Columbia. We completed our initial public offering in November 2013. The financial strength of Essent Guaranty, Inc. ("Essent Guaranty"), our wholly-owned insurance subsidiary, is rated Baa2 with a stable outlook by Moody's Investor Services ("Moody's") and BBB+ with a stable outlook by S&P Global Ratings ("S&P").

We had master policy relationships with approximately 1,370 customers as of March 31, 2017. Our holding company is domiciled in Bermuda and our U.S. insurance business is headquartered in Radnor, Pennsylvania. We operate additional underwriting and service centers in Winston-Salem, North Carolina and Irvine, California. We have a highly experienced, talented team with 393 employees as of March 31, 2017. We generated NIW of approximately \$8.0 billion and \$5.5 billion for the three months ended March 31, 2017 and 2016, respectively. As of March 31, 2017, we had approximately \$88.0 billion of insurance in force.

We also offer mortgage-related insurance and reinsurance through our wholly-owned Bermuda-based subsidiary, Essent Reinsurance, Ltd., which we refer to as "Essent Re." As of March 31, 2017, Essent Re provided insurance or reinsurance relating to the risk in force on loans in reference pools acquired by Freddie Mac and Fannie Mae covering approximately \$437.0 million of risk, including in connection with Freddie Mac's Agency Credit Insurance Structure ("ACIS") and Fannie Mae's Credit Insurance Risk Transfer ("CIRT") programs. Essent Re has also reinsured 25% of Essent Guaranty's GSE-eligible mortgage insurance NIW originated since July 1, 2014 under a quota share reinsurance agreement. The insurer financial strength rating of Essent Re is BBB+ with a stable outlook by S&P.

Legislative and Regulatory Developments

Our results are significantly impacted by, and our future success may be affected by, legislative and regulatory developments affecting the housing finance industry. See Part I, Item 1 "Business—Regulation" and Part II, Item 7 "Management's Discussion and Analysis of Financial Condition and Results of Operations—Legislative and Regulatory Developments" in our Annual Report for a discussion of the laws and regulations to which we are subject as well as legislative and regulatory developments affecting the housing finance industry.

Effective December 31, 2015, Fannie Mae and Freddie Mac, at the direction of the Federal Housing Finance Agency ("FHFA"), implemented new coordinated Private Mortgage Insurer Eligibility Requirements, which we refer to as the "PMIERs." The PMIERs represent the standards by which private mortgage insurers are eligible to provide mortgage insurance on loans owned or guaranteed by Fannie Mae and Freddie Mac. The PMIERs include financial strength requirements incorporating a risk-based framework that require approved insurers to have a sufficient level of liquid assets from which to pay claims. The PMIERs also include enhanced operational performance expectations and define remedial actions that apply should an approved insurer fail to comply with these requirements. As of March 31, 2017, Essent Guaranty, our GSE-approved mortgage insurance company, was in compliance with the PMIERs. See additional discussion in "— Liquidity and Capital Resources —Private Mortgage Insurer Eligibility Requirements."

Factors Affecting Our Results of Operations

Net Premiums Written and Earned

Premiums associated with our U.S. mortgage insurance business are based on insurance in force ("IIF") during all or a portion of a period. A change in the average IIF during a period causes premiums to increase or decrease as compared to prior periods. Average premium rates in effect during a given period will also cause premiums to differ when compared to earlier periods. IIF at the end of a reporting period is a function of the IIF at the beginning of such reporting period plus NIW less policy cancellations (including claims paid) during the period. As a result, premiums are generally influenced by:

- NIW, which is the aggregate principal amount of the new mortgages that are insured during a period. Many factors affect NIW, including, among others, the volume of low down payment home mortgage originations and the competition to provide credit enhancement on those mortgages;
- Cancellations of our insurance policies, which are impacted by payments on mortgages, home price appreciation, or refinancings, which in turn are affected by mortgage interest rates. Cancellations are also impacted by the levels of claim payments and rescissions;
- Premium rates, which represent the amount of the premium due as a percentage of IIF. Premium rates are based on the risk characteristics of the loans insured, the percentage of coverage on the loans, competition from other mortgage insurers and general industry conditions; and
- Premiums ceded or assumed under reinsurance arrangements. To date, we have not ceded any premiums under third-party reinsurance contracts.

Premiums are paid either on a monthly installment basis ("monthly premiums"), in a single payment at origination ("single premiums"), or in some cases as an annual premium. For monthly premiums, we receive a monthly premium payment which is recorded as net premiums earned in the month the coverage is provided. Monthly premium payments are based on the original mortgage amount rather than the amortized loan balance. Net premiums written may be in excess of net premiums earned due to single premium policies. For single premiums, we receive a single premium payment at origination, which is recorded as "unearned premium" and earned over the estimated life of the policy, which ranges from 36 to 156 months depending on the term of the underlying mortgage and loan-to-value ratio at date of origination. If single premium policies are cancelled due to repayment of the underlying loan and the premium is non-refundable, the remaining unearned premium balance is immediately recognized as earned premium revenue. Substantially all of our single premium policies in force as of March 31, 2017 were non-refundable. Premiums collected on annual policies are recognized as net premiums earned on a straight-line basis over the year of coverage. For the three months ended March 31, 2017, monthly and single premium policies comprised 85.8% and 14.2% of our NIW, respectively.

Premiums associated with our GSE risk share transactions are based on the level of risk in force.

Persistency and Business Mix

The percentage of IIF that remains on our books after any 12-month period is defined as our persistency rate. Because our insurance premiums are earned over the life of a policy, higher persistency rates can have a significant impact on our profitability. The persistency rate on our portfolio was 78.2% at March 31, 2017. Generally, higher prepayment speeds lead to lower persistency.

Prepayment speeds and the relative mix of business between single premium policies and monthly premium policies also impact our profitability. Our premium rates include certain assumptions regarding repayment or prepayment speeds of the mortgages. Because premiums are paid at origination on single premium policies, assuming all other factors remain constant, if loans are prepaid earlier than expected, our profitability on these loans is likely to increase and, if loans are repaid slower than expected, our profitability on these loans is likely to decrease. By contrast, if monthly premium loans are repaid earlier than anticipated, our premium earned with respect to those loans and therefore our profitability declines. Currently, the expected return on single premium policies is less than the expected return on monthly policies.

Net Investment Income

Our investment portfolio was predominantly comprised of investment-grade fixed income securities and money market funds as of March 31, 2017. The principal factors that influence investment income are the size of the investment portfolio and the yield on individual securities. As measured by amortized cost (which excludes changes in fair market value, such as from changes in interest rates), the size of our investment portfolio is mainly a function of increases in capital and cash generated from or used in operations which is impacted by net premiums received, investment earnings, net claim payments and expenses. Realized gains and losses are a function of the difference between the amount received on the sale of a security and the security's amortized cost, as well as any "other-than-temporary" impairments recognized in earnings. The amount received on the sale of fixed income securities is affected by the coupon rate of the security compared to the yield of comparable securities at the time of sale.

Other Income

In connection with the acquisition of our mortgage insurance platform, we entered into a services agreement with Triad Guaranty Inc. and its wholly-owned subsidiary, Triad Guaranty Insurance Corporation, which we refer to collectively as "Triad," to provide certain information technology maintenance and development and customer support-related services. In return for these services, we receive a fee which is recorded in other income. This fee is adjusted monthly based on the number of Triad's mortgage insurance policies in force and, accordingly, will decrease over time as Triad's existing policies are cancelled. The services agreement was automatically extended until November 30, 2017 and provides for two subsequent one-year renewals at Triad's option.

Other income also includes revenues associated with contract underwriting services and changes in the fair value of derivative instruments. The level of contract underwriting revenue is dependent upon the number of customers who have engaged us for this service and the number of loans underwritten for these customers. Through June 30, 2016, the insurance and certain of the reinsurance policies issued by Essent Re in connection with the ACIS program were previously accounted for as derivatives under U.S. generally accepted accounting principles ("GAAP") with the fair value of these policies reported as an asset or liability and changes in the fair value of these policies reported in earnings. Changes in the fair value of these policies were impacted by changes in market observable factors. These policies were amended in the three months ended September 30, 2016 and are now accounted for as insurance rather than as derivatives. See Note 10 to our condensed consolidated financial statements.

Provision for Losses and Loss Adjustment Expenses

The provision for losses and loss adjustment expenses reflects the current expense that is recorded within a particular period to reflect actual and estimated loss payments that we believe will ultimately be made as a result of insured loans that are in default.

Losses incurred are generally affected by:

- the overall state of the economy, which broadly affects the likelihood that borrowers may default on their loans and have the ability to cure such defaults;
- changes in housing values, which affect our ability to mitigate our losses through the sale of properties with loans in default as well as borrower willingness to continue to make mortgage payments when the value of the home is below or perceived to be below the mortgage balance;
- the product mix of IIF, with loans having higher risk characteristics generally resulting in higher defaults and claims;
- the size of loans insured, with higher average loan amounts tending to increase losses incurred;

- the loan-to-value ratio, with higher average loan-to-value ratios tending to increase losses incurred;
- the percentage of coverage on insured loans, with deeper average coverage tending to increase losses incurred;
- credit quality of borrowers, including higher debt-to-income ratios and lower FICO scores, which tend to increase incurred losses;
- the rate at which we rescind policies. Because of tighter underwriting standards generally in the mortgage lending industry and terms set forth in our master policy, we expect that our level of rescission activity will be lower than rescission activity seen in the mortgage insurance industry for vintages originated prior to the financial crisis; and
- the distribution of claims over the life of a book. The average age of our insurance portfolio is young with 70% of our IIF as of March 31, 2017 having been originated since January 1, 2015. As a result, based on historical industry performance, we expect the number of defaults and claims we experience, as well as our provision for losses and loss adjustment expenses, to increase as our portfolio further seasons. See “— Mortgage Insurance Earnings and Cash Flow Cycle” below.

We establish loss reserves for delinquent loans when we are notified that a borrower has missed at least two consecutive monthly payments (“Case Reserves”), as well as estimated reserves for defaults that may have occurred but not yet been reported to us (“IBNR Reserves”). We also establish reserves for the associated loss adjustment expenses (“LAE”), consisting of the estimated cost of the claims administration process, including legal and other fees. Using both internal and external information, we establish our reserves based on the likelihood that a default will reach claim status and estimated claim severity. See Part II, Item 7 “Management’s Discussion and Analysis of Financial Condition and Results of Operations — Critical Accounting Policies” included in our Annual Report for further information.

We believe, based upon our experience and industry data, that claims incidence for mortgage insurance is generally highest in the third through sixth years after loan origination. As of March 31, 2017, 70% of our IIF relates to business written since January 1, 2015 and was less than three years old. Although the claims experience on new insurance written by us to date has been favorable, we expect incurred losses and claims to increase as a greater amount of this book of insurance reaches its anticipated period of highest claim frequency. The actual default rate and the average reserve per default that we experience as our portfolio matures is difficult to predict and is dependent on the specific characteristics of our current in-force book (including the credit score of the borrower, the loan-to-value ratio of the mortgage, geographic concentrations, etc.), as well as the profile of new business we write in the future. In addition, the default rate and the average reserve per default will be affected by future macroeconomic factors such as housing prices, interest rates and employment.

Other Underwriting and Operating Expenses

Our other underwriting and operating expenses include components that are substantially fixed, as well as expenses that generally increase or decrease in line with the level of NIW.

Our most significant expense is compensation and benefits for our employees, which represented 64% of other underwriting and operating expenses for the three months ended March 31, 2017, compared to 65% of other underwriting and operating expenses for the three months ended March 31, 2016. Compensation and benefits expense includes base and incentive cash compensation, stock compensation expense, benefits and payroll taxes. Compensation and benefits expense has steadily increased as we have increased our staffing from 366 employees at January 1, 2016 to 393 at March 31, 2017, primarily in our business development and operations functions to support the growth of our business. The growth in our sales organization contributed to the growth of our active customers and NIW. We also expanded our underwriting and customer service teams to support this new business.

Underwriting and other expenses include legal, consulting, other professional fees, premium taxes, travel, entertainment, marketing, licensing, supplies, hardware, software, rent, utilities, depreciation and amortization and other expenses. We anticipate that as we continue to add customers and increase our IIF, our expenses will also continue to increase. In addition, as a result of the increase in our IIF, we expect that our net premiums earned will grow faster than our underwriting and other expenses resulting in a decline in our expense ratio for the full year 2017 as compared to 2016.

Interest Expense

Interest expense is incurred as a result of borrowings under our three-year, secured revolving credit facility with a committed capacity of \$200 million (the “Facility”). Borrowings under the Facility may be used for working capital and general corporate purposes, including, without limitation, capital contributions to Essent’s insurance and reinsurance subsidiaries. Borrowings accrue interest at a floating rate tied to a standard short-term borrowing index, selected at the Company’s option, plus an applicable margin.

Income Taxes

Income taxes are incurred based on the amount of earnings or losses generated in the jurisdictions in which we operate and the applicable tax rates and regulations in those jurisdictions. Our U.S. insurance subsidiaries are generally not subject to income taxes in the states in which we operate; however, our non-insurance subsidiaries are subject to state income taxes. In lieu of state income taxes, our insurance subsidiaries pay premium taxes that are recorded in other underwriting and operating expenses.

Essent Group Ltd. and its wholly-owned subsidiary, Essent Re, are domiciled in Bermuda, which does not have a corporate income tax. Effective July 2014, Essent Re began to reinsure 25% of GSE-eligible new insurance written of Essent Guaranty, an affiliate. Essent Re also provides insurance and reinsurance to Freddie Mac and Fannie Mae.

The amount of income tax expense or benefit recorded in future periods will be dependent on the jurisdictions in which we operate and the tax laws and regulations in effect.

Mortgage Insurance Earnings and Cash Flow Cycle

In general, the majority of any underwriting profit (premium revenue minus losses) that a book generates occurs in the early years of the book, with the largest portion of any underwriting profit realized in the first year. Subsequent years of a book generally result in modest underwriting profit or underwriting losses. This pattern generally occurs because relatively few of the claims that a book will ultimately experience typically occur in the first few years of the book, when premium revenue is highest, while subsequent years are affected by declining premium revenues, as the number of insured loans decreases (primarily due to loan prepayments), and by increasing losses.

Key Performance Indicators

Insurance In Force

As discussed above, premiums we collect and earn are generated based on our IIF, which is a function of our NIW and cancellations. The following table includes a summary of the change in our IIF for the three months ended March 31, 2017 and 2016 for our U.S. mortgage insurance portfolio. In addition, this table includes our risk in force (“RIF”) at the end of each period.

(In thousands)	Three Months Ended March 31,	
	2017	2016
IIF, beginning of period	\$ 83,265,522	\$ 65,242,453
NIW - Flow	8,034,153	5,366,675
NIW - Bulk	—	93,054
Cancellations	(3,306,448)	(2,985,441)
IIF, end of period	\$ 87,993,227	\$ 67,716,741
Average IIF during the period	\$ 85,488,081	\$ 66,437,045
RIF, end of period	\$ 21,801,667	\$ 16,745,819

The following is a summary of our IIF at March 31, 2017 by vintage:

(\$ in thousands)	\$	%
2017 (through March 31)	\$ 7,985,761	9.1%
2016	33,018,253	37.5
2015	20,458,227	23.2
2014	13,669,734	15.5
2013	8,758,749	10.0
2012 and prior	4,102,503	4.7
	<u>\$ 87,993,227</u>	<u>100.0%</u>

Average Premium Rate

Our average premium rate is dependent on a number of factors, including: (1) the risk characteristics and average coverage on the mortgages we insure; (2) the mix of monthly premiums compared to single premiums in our portfolio; (3) cancellations of non-refundable single premiums during the period; and (4) changes to our pricing. For the three months ended March 31, 2017 and 2016, our average premium rate was 0.53% and 0.56%, respectively.

Persistency Rate

The measure for assessing the impact of policy cancellations on IIF is our persistency rate, defined as the percentage of IIF that remains on our books after any twelve-month period. See additional discussion regarding the impact of the persistency rate on our performance in “— Factors Affecting Our Results of Operations — Persistency and Business Mix.”

Risk-to-Capital

The risk-to-capital ratio has historically been used as a measure of capital adequacy in the U.S. mortgage insurance industry and is calculated as a ratio of net risk in force to statutory capital. Net risk in force represents total risk in force net of reinsurance ceded and net of exposures on policies for which loss reserves have been established. Statutory capital for our U.S. insurance companies is computed based on accounting practices prescribed or permitted by the Pennsylvania Insurance Department. See additional discussion in “— Liquidity and Capital Resources — Insurance Company Capital.”

As of March 31, 2017, our combined net risk in force for our U.S. insurance companies was \$17.6 billion and our combined statutory capital was \$1.2 billion, resulting in a risk-to-capital ratio of 14.6 to 1. The amount of capital required varies in each jurisdiction in which we operate; however, generally, the maximum permitted risk-to-capital ratio is 25.0 to 1. State insurance regulators are currently examining their respective capital rules to determine whether, in light of the financial crisis, changes are needed to more accurately assess mortgage insurers’ ability to withstand stressful economic conditions. As a result, the capital metrics under which they assess and measure capital adequacy may change in the future. Independent of the state regulator and GSE capital requirements, management continually assesses the risk of our insurance portfolio and current market and economic conditions to determine the appropriate levels of capital to support our business.

Results of Operations

The following table sets forth our results of operations for the periods indicated:

Summary of Operations (In thousands)	Three Months Ended March 31,	
	2017	2016
Revenues:		
Net premiums written	\$ 119,297	\$ 100,466
Increase in unearned premiums	(1,646)	(6,063)
Net premiums earned	117,651	94,403
Net investment income	8,435	6,183
Realized investment gains, net	655	471
Other income	851	1,409
Total revenues	127,592	102,466
Losses and expenses:		
Provision for losses and LAE	3,693	3,731
Other underwriting and operating expenses	36,332	31,388
Interest expense	716	—
Total losses and expenses	40,741	35,119
Income before income taxes	86,851	67,347
Income tax expense	20,253	19,396
Net income	\$ 66,598	\$ 47,951

Three Months Ended March 31, 2017 Compared to the Three Months Ended March 31, 2016

For the three months ended March 31, 2017, we reported net income of \$66.6 million, compared to net income of \$48.0 million for the three months ended March 31, 2016. The increase in our operating results in 2017 over the same period in 2016 was primarily due to the increase in net premiums earned associated with the growth of our IIF and the increase in net investment income, partially offset by increases in other underwriting and operating expenses, interest expense and income taxes.

Net Premiums Written and Earned

Net premiums earned increased in the three months ended March 31, 2017 by 25% compared to the three months ended March 31, 2016 primarily due to the increase in our average IIF from \$66.4 billion at March 31, 2016 to \$85.5 billion at March 31, 2017, partially offset by a decrease in average premium rate from 0.56% for the three months ended March 31, 2016 to 0.53% for the three months ended March 31, 2017. The decrease in the average premium rate during the three months ended March 31, 2017 is due primarily to a decrease in premium earned on the cancellation of non-refundable single premium policies.

The increase in net premiums written was due primarily to the increase in average IIF of 29% for the three months ended March 31, 2017 as compared to the same period in 2016. Net premiums written increased in the three months ended March 31, 2017 by 19% over the three months ended March 31, 2016.

In the three months ended March 31, 2017 and 2016, unearned premiums increased by \$1.6 million and \$6.1 million, respectively. The change in unearned premiums was a result of net premiums written on single premium policies of \$18.2 million and \$23.2 million, respectively, which was partially offset by \$16.6 million and \$17.1 million, respectively, of unearned premium that was recognized in earnings during the periods.

Net Investment Income

Our net investment income was derived from the following sources for the period indicated:

(In thousands)	Three Months Ended March 31,	
	2017	2016
Fixed maturities	\$ 9,019	\$ 6,655
Short-term investments	59	33
Gross investment income	9,078	6,688
Investment expenses	(643)	(505)
Net investment income	<u>\$ 8,435</u>	<u>\$ 6,183</u>

The increase in net investment income for the three months ended March 31, 2017 as compared to the same period in 2016 was due to the increase in the weighted average balance of our investment portfolio and the increase in the pre-tax investment income yield. The average cash and investment portfolio balance increased to \$1.7 billion for the three months ended March 31, 2017 from \$1.3 billion for the three months ended March 31, 2016 primarily as a result of investing cash flows from operations and investing borrowings under our revolving credit facility. The pre-tax investment income yield increased from 2.0% in the three months ended March 31, 2016 to 2.2% in the three months ended March 31, 2017 primarily due to an increase in the portion of our investment portfolio invested in spread and duration assets. The pre-tax investment income yields are calculated based on amortized cost and exclude investment expenses. See “— Liquidity and Capital Resources” for further details of our investment portfolio.

Other Income

Other income includes fees earned for information technology and customer support services provided to Triad and contract underwriting revenues. In 2016, other income also included changes in the fair value of the insurance and certain reinsurance policies issued by Essent Re under the ACIS program. These policies were amended in the three months ended September 30, 2016 and are now accounted for as insurance rather than as derivatives. The decrease in other income for the three months ended March 31, 2017 as compared to the same period in 2016, was primarily due to the \$0.7 million increase in the estimated fair value of our ACIS contracts in 2016, resulting from the decrease in observed prepayment speeds associated with the underlying pool of mortgages on the reference STACR notes issued by Freddie Mac, as well as a decrease in Triad service fees associated with a reduction in the number of Triad's mortgage insurance policies in force, partially offset by an increase in contract underwriting revenue.

Provision for Losses and Loss Adjustment Expenses

The provision for losses and LAE was \$3.7 million in the three months ended March 31, 2017 and 2016. The following table presents a rollforward of insured loans in default for the periods indicated:

	Three Months Ended March 31,	
	2017	2016
Beginning default inventory	1,757	1,028
Plus: new defaults	1,200	769
Less: cures	(1,114)	(706)
Less: claims paid	(65)	(30)
Less: rescissions and denials, net	(1)	(1)
Ending default inventory	<u>1,777</u>	<u>1,060</u>

The increase in the number of defaults at March 31, 2017 compared to March 31, 2016 was primarily due to the increase in our IIF and policies in force, as well as further seasoning of our insurance portfolio.

The following table includes additional information about our loans in default as of the dates indicated:

	As of March 31,	
	2017	2016
Case reserves (in thousands)	\$ 26,964	\$ 18,795
Ending default inventory	1,777	1,060
Average case reserve per default (in thousands)	\$ 15.2	\$ 17.7
Default rate	0.45%	0.34%
Claims received included in ending default inventory	34	24

The decrease in the average case reserve per default was primarily due to changes in the composition (such as mark-to-market loan-to-value ratios, risk in force, and number of months past due) of the underlying loans in default and improvements in economic fundamentals.

The following tables provide a reconciliation of the beginning and ending reserve balances for losses and LAE and a detail of reserves and defaulted RIF by the number of missed payments and pending claims:

(In thousands)	Three Months Ended March 31,	
	2017	2016
Reserve for losses and LAE at beginning of period	\$ 28,142	\$ 17,760
Add provision for losses and LAE occurring in:		
Current period	7,090	5,080
Prior years	(3,397)	(1,349)
Incurred losses during the current period	3,693	3,731
Deduct payments for losses and LAE occurring in:		
Current period	1	1
Prior years	2,366	1,020
Loss and LAE payments during the current period	2,367	1,021
Reserve for losses and LAE at end of period	\$ 29,468	\$ 20,470

(\$ in thousands)	As of March 31, 2017					
	Number of Policies in Default	Percentage of Policies in Default	Amount of Reserves	Percentage of Reserves	Defaulted RIF	Reserves as a Percentage of Defaulted RIF
Missed payments:						
Three payments or less	869	49%	\$ 6,426	24%	\$ 50,004	13%
Four to eleven payments	690	39	13,428	50	38,252	35
Twelve or more payments	184	10	5,673	21	9,403	60
Pending claims	34	2	1,437	5	1,748	82
Total case reserves	1,777	100%	26,964	100%	\$ 99,407	27
IBNR			2,022			
LAE and other			482			
Total reserves for losses and LAE			\$ 29,468			

(\$ in thousands)	As of March 31, 2016					
	Number of Policies in Default	Percentage of Policies in Default	Amount of Reserves	Percentage of Reserves	Defaulted RIF	Reserves as a Percentage of Defaulted RIF
Missed payments:						
Three payments or less	505	48%	\$ 4,639	25%	\$ 28,519	16%
Four to eleven payments	426	40	9,689	52	23,147	42
Twelve or more payments	105	10	3,438	18	5,217	66
Pending claims	24	2	1,029	5	1,202	86
Total case reserves	1,060	100%	18,795	100%	\$ 58,085	32
IBNR			1,410			
LAE and other			265			
Total reserves for losses and LAE			\$ 20,470			

During the three months ended March 31, 2017, the provision for losses and LAE was \$3.7 million, comprised of \$7.1 million of current year losses partially offset by \$3.4 million of favorable prior years' loss development. During the three months ended March 31, 2016, the provision for losses and LAE was \$3.7 million, comprised of \$5.1 million of current year losses partially offset by \$1.3 million of favorable prior years' loss development. In both periods, the prior years' loss development was the result of a re-estimation of amounts ultimately to be paid on prior year defaults in the default inventory, including the impact of previously identified defaults that cured.

The following table includes additional information about our claims paid and claim severity as of the dates indicated:

(\$ in thousands)	Three Months Ended March 31,	
	2017	2016
Number of claims paid	65	30
Amount of claims paid	\$ 2,307	\$ 998
Claim severity	87%	93%

Other Underwriting and Operating Expenses

Following are the components of our other underwriting and operating expenses for the periods indicated:

(\$ in thousands)	Three Months Ended March 31,			
	2017		2016	
	\$	%	\$	%
Compensation and benefits	\$ 23,179	64%	\$ 20,306	65%
Other	13,153	36	11,082	35
	\$ 36,332	100%	\$ 31,388	100%

Number of employees at end of period	393	357
--------------------------------------	-----	-----

The significant factors contributing to the change in other underwriting and operating expenses are:

- Compensation and benefits increased primarily due to the increase in the size of our workforce, to 393 at March 31, 2017 from 366 at January 1, 2016 and an increase in stock compensation expense. Additional employees were hired to support the growth in our business, particularly in our sales organization, as well as our underwriting and customer service teams. Compensation and benefits includes salaries, wages and bonus, stock compensation expense, benefits and payroll taxes.
- Other expenses increased as a result of the continued expansion of our business. Other expenses include premium taxes, travel, marketing, hardware, software, rent, depreciation and amortization and other facilities expenses.

Interest Expense

For the three months ended March 31, 2017, we incurred interest expense of \$0.7 million associated with amounts outstanding under our revolving credit facility. At March 31, 2017, \$125 million was outstanding under this facility. For the three months ended March 31, 2016, we had not yet entered into our revolving credit facility.

Income Taxes

Our subsidiaries in the United States file a consolidated U.S. Federal income tax return. For interim reporting periods, we use an annualized effective tax rate method required under GAAP to calculate the income tax provision. Our income tax expense was \$20.3 million and \$19.4 million for the three months ended March 31, 2017 and 2016, respectively. Income tax expense for the three months ended March 31, 2017 was calculated using an annualized effective tax rate of 26.8% and was reduced by \$3.0 million of excess tax benefits associated with the vesting of common shares and common share units during the quarter as required by ASU 2016-09, *Improvements to Employee Share-Based Payment Accounting* (Topic 718), adopted on January 1, 2017. Prior to the adoption of ASU 2016-09, excess tax benefits were recognized in additional paid-in-capital. The tax effects associated with the vesting of common shares and common share units are treated as discrete items in the reporting period in which they occur and are not considered in determining the annualized effective tax rate. Our effective tax rate was 28.8% for the three months ended March 31, 2016. In 2017, we expect the proportion of our consolidated earnings generated in Bermuda to be higher than in 2016 as a result of an increase in the amount of risk in force associated with insurance and reinsurance contracts executed with Freddie Mac and Fannie Mae and the quota share reinsurance agreement between Essent Guaranty and Essent Re. Bermuda does not have a corporate income tax.

Liquidity and Capital Resources

Overview

Our sources of funds consist primarily of:

- our investment portfolio and interest income on the portfolio;
- net premiums that we will receive from our existing IIF as well as policies that we write in the future;
- borrowings under our revolving credit facility; and
- issuance of capital shares.

Our obligations consist primarily of:

- claim payments under our policies;
- repayment of borrowings under our revolving credit facility; and
- the other costs and operating expenses of our business.

As of March 31, 2017, we had substantial liquidity with cash of \$19.7 million, short-term investments of \$112.4 million and fixed maturity investments of \$1.6 billion. We also had \$75 million available under our revolving credit facility, with \$125 million of borrowings outstanding under this facility. Borrowings accrue interest at a floating rate tied to a standard short-term borrowing index, selected at the Company's option, plus an applicable margin and are paid monthly. At March 31, 2017, net cash and investments at the holding company were \$41.1 million.

Management believes that the Company has sufficient liquidity available both at the holding company and in its insurance and other operating subsidiaries to meet its operating cash needs and obligations and committed capital expenditures for the next 12 months.

While the Company and all of its subsidiaries are expected to have sufficient liquidity to meet all their expected obligations, additional capital may be required to meet any capital requirements that are adopted by regulatory authorities or the GSEs, or to provide additional capital related to the growth of our risk in force in our mortgage insurance portfolio, or to fund new business initiatives including the insurance activities of Essent Re.

At the operating subsidiary level, liquidity could be impacted by any one of the following factors:

- significant decline in the value of our investments;
- inability to sell investment assets to provide cash to fund operating needs;
- decline in expected revenues generated from operations;
- increase in expected claim payments related to our IIF; or
- increase in operating expenses.

Our U.S. insurance subsidiaries are subject to certain capital and dividend rules and regulations prescribed by jurisdictions in which they are authorized to operate and the GSEs. Under the insurance laws of the Commonwealth of Pennsylvania, the insurance subsidiaries may pay dividends during any twelve-month period in an amount equal to the greater of (i) 10% of the preceding year-end statutory policyholders' surplus or (ii) the preceding year's statutory net income. The Pennsylvania statute also requires that dividends and other distributions be paid out of positive unassigned surplus without prior approval. At March 31, 2017, Essent Guaranty had unassigned surplus of approximately \$29.8 million and has paid no dividends since its inception. Essent Guaranty of PA, Inc. ("Essent PA") had unassigned surplus of approximately \$4.3 million as of March 31, 2017. During the three months ended March 31, 2017, Essent PA paid to its parent company, Essent US Holdings, Inc., a \$5.0 million dividend. Essent Re is subject to certain dividend restrictions as prescribed by the Bermuda Monetary Authority and under certain agreements with counterparties. In connection with a quota share reinsurance agreement with Essent Guaranty, Essent Re has agreed to maintain a minimum total equity of \$100 million. As of March 31, 2017, Essent Re had total equity of \$452.5 million. In connection with its insurance and reinsurance activities, Essent Re is required to maintain assets in trusts for the benefit of its contractual counterparties. See Note 3 to our condensed consolidated financial statements. At March 31, 2017, our insurance subsidiaries were in compliance with these rules, regulations and agreements.

Cash Flows

The following table summarizes our consolidated cash flows from operating, investing and financing activities:

(In thousands)	Three Months Ended March 31,	
	2017	2016
Net cash provided by operating activities	\$ 77,888	\$ 68,497
Net cash used in investing activities	(103,579)	(61,054)
Net cash provided by (used in) financing activities	17,873	(3,843)
Net (decrease) increase in cash	\$ (7,818)	\$ 3,600

Operating Activities

Cash flow provided by operating activities totaled \$77.9 million for the three months ended March 31, 2017, as compared to \$68.5 million for the three months ended March 31, 2016. The increase in cash flow provided by operating activities of \$9.4 million in 2017 was primarily a result of increases in premiums collected and net investment income, partially offset by increases in expenses paid.

Investing Activities

Cash flow used in investing activities totaled \$103.6 million for the three months ended March 31, 2017, as compared to \$61.1 million for the three months ended March 31, 2016. The increase in cash flow used in investing activities primarily related to investing cash flows from the business and investing the \$25 million borrowed under the revolving credit facility in 2017.

Financing Activities

Cash flow provided by financing activities totaled \$17.9 million for the three months ended March 31, 2017, as compared to cash flow used in financing activities of \$3.8 million for the three months ended March 31, 2016. The increase in

cash flow provided by financing activities was primarily related to the \$25 million borrowing under the revolving credit facility, which was contributed to Essent Re to support new business, partially offset by an increase in treasury stock acquired from employees to satisfy tax withholding obligations.

Insurance Company Capital

We compute a risk-to-capital ratio for our U.S. insurance companies on a separate company statutory basis, as well as for our combined insurance operations. The risk-to-capital ratio is our net risk in force divided by our statutory capital. Our net risk in force represents risk in force net of reinsurance ceded, if any, and net of exposures on policies for which loss reserves have been established. Statutory capital consists primarily of statutory policyholders' surplus (which increases as a result of statutory net income and decreases as a result of statutory net loss and dividends paid), plus the statutory contingency reserve. The statutory contingency reserve is reported as a liability on the statutory balance sheet. A mortgage insurance company is required to make annual contributions to the contingency reserve of 50% of net premiums earned. These contributions must generally be maintained for a period of ten years. However, with regulatory approval, a mortgage insurance company may make early withdrawals from the contingency reserve when incurred losses exceed 35% of net premiums earned in a calendar year.

During the three months ended March 31, 2017 and 2016, no capital contributions were made by Essent Group Ltd. to our U.S. insurance subsidiaries.

Our combined risk-to-capital calculation for our U.S. insurance subsidiaries as of March 31, 2017 is as follows:

Combined statutory capital: (\$ in thousands)		
Policyholders' surplus	\$	639,094
Contingency reserves		563,475
Combined statutory capital	\$	1,202,569
Combined net risk in force	\$	17,611,301
Combined risk-to-capital ratio		14.6:1

For additional information regarding regulatory capital, see Note 11 to our condensed consolidated financial statements. Our combined statutory capital equals the sum of statutory capital of Essent Guaranty plus Essent PA, after eliminating the impact of intercompany transactions. The combined risk-to-capital ratio equals the sum of the net risk in force of Essent Guaranty and Essent PA divided by combined statutory capital. The information above has been derived from the annual and quarterly statements of our insurance subsidiaries, which have been prepared in conformity with accounting practices prescribed or permitted by the Pennsylvania Insurance Department. Such practices vary from accounting principles generally accepted in the United States.

Essent Re has entered into risk share insurance and reinsurance transactions with Freddie Mac and Fannie Mae. Essent Re also executed a quota share reinsurance transaction with Essent Guaranty to reinsure 25% of Essent Guaranty's GSE-eligible NIW effective July 1, 2014. During the three months ended March 31, 2017, Essent Group Ltd. made capital contributions to Essent Re of \$30.0 million to support new business. As of March 31, 2017, Essent Re had total stockholders' equity of \$452.5 million and net risk in force of \$4.6 billion.

Financial Strength Ratings

The insurer financial strength rating of Essent Guaranty, our principal mortgage insurance subsidiary, is Baa2 with a stable outlook by Moody's and BBB+ with a stable outlook by S&P. The insurer financial strength rating of Essent Re is BBB+ with a stable outlook by S&P.

Private Mortgage Insurer Eligibility Requirements

Effective December 31, 2015, Fannie Mae and Freddie Mac, at the direction of the FHFA, implemented new coordinated Private Mortgage Insurer Eligibility Requirements, which we refer to as the "PMIERS." The PMIERS represent the standards by which private mortgage insurers are eligible to provide mortgage insurance on loans owned or guaranteed by Fannie Mae and Freddie Mac. The PMIERS include financial strength requirements incorporating a risk-based framework that require approved insurers to have a sufficient level of liquid assets from which to pay claims. The PMIERS also include

enhanced operational performance expectations and define remedial actions that apply should an approved insurer fail to comply with these requirements. As of March 31, 2017, Essent Guaranty, our GSE-approved mortgage insurance company, was in compliance with the PMIERS. As of March 31, 2017, Essent Guaranty's Available Assets were \$1.24 billion and its Minimum Required Assets were \$1.19 billion based on our interpretation of the PMIERS.

Financial Condition

Stockholders' Equity

As of March 31, 2017, stockholders' equity was \$1.4 billion compared to \$1.3 billion as of December 31, 2016. This increase was primarily due to net income generated in 2017.

Investments

The total fair value of our investment portfolio was \$1.7 billion as of March 31, 2017 and \$1.6 billion as of December 31, 2016. In addition, our total cash was \$19.7 million as of March 31, 2017, compared to \$27.5 million as of December 31, 2016. The increase in investments was primarily due to investing net cash flows from operations and the \$25 million borrowed under the revolving credit facility during the three months ended March 31, 2017.

Investment Portfolio by Asset Class

Asset Class (\$ in thousands)	March 31, 2017		December 31, 2016

(1) None of the above securities include financial guaranty insurance. Certain securities include state enhancements. The above ratings exclude the effect of such state enhancements.

(2) Based on ratings issued by Moody's, if available. S&P or Fitch rating utilized if Moody's not available.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements or financing activities with special-purpose entities.

Critical Accounting Policies

As of the filing date of this report, there were no significant changes in our critical accounting policies from those discussed in our 2016 Form 10-K. See Note 2 to our condensed consolidated financial statements for recently issued accounting standards under evaluation.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We own and manage a large investment portfolio of various holdings, types and maturities. Investment income is one of our primary sources of cash flow supporting operations and claim payments. The assets within the investment portfolio are exposed to the same factors that affect overall financial market performance. While our investment portfolio is exposed to factors affecting markets worldwide, it is most sensitive to fluctuations in the drivers of U.S. markets.

We manage market risk via defined investment policy implemented by our treasury function with oversight from our board of directors and our senior management. Important drivers of our market risk exposure monitored and managed by us include but are not limited to:

- *Changes to the level of interest rates.* Increasing interest rates may reduce the value of certain fixed-rate bonds held in the investment portfolio. Higher rates may cause variable-rate assets to generate additional income. Decreasing rates will have the reverse impact. Significant changes in interest rates can also affect persistency and claim rates which may in turn require that the investment portfolio be restructured to better align it with future liabilities and claim payments. Such restructuring may cause investments to be liquidated when market conditions are adverse.
- *Changes to the term structure of interest rates.* Rising or falling rates typically change by different amounts along the yield curve. These changes may have unforeseen impacts on the value of certain assets.
- *Market volatility/changes in the real or perceived credit quality of investments.* Deterioration in the quality of investments, identified through changes to our own or third-party (e.g., rating agency) assessments, will reduce the value and potentially the liquidity of investments.
- *Concentration Risk.* If the investment portfolio is highly concentrated in one asset, or in multiple assets whose values are highly correlated, the value of the total portfolio may be greatly affected by the change in value of just one asset or a group of highly correlated assets.
- *Prepayment Risk.* Bonds may have call provisions that permit debtors to repay prior to maturity when it is to their advantage. This typically occurs when rates fall below the interest rate of the debt.

Market risk is measured for all investment assets at the individual security level. Market risks that are not fully captured by the quantitative analysis are highlighted. In addition, material market risk changes that occur from the last reporting period to the current are discussed. Changes to how risks are managed will also be identified and described.

At March 31, 2017, the effective duration of our investment portfolio, including cash, was 4.1 years, which means that an instantaneous parallel shift (movement up or down) in the yield curve of 100 basis points would result in a change of 4.1% in fair value of our investment portfolio. Excluding cash, our investment portfolio effective duration was 4.4 years, which means that an instantaneous parallel shift (movement up or down) in the yield curve of 100 basis points would result in a change of 4.4% in fair value of our investment portfolio.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

Our management carried out an evaluation, under the supervision and with the participation of our chief executive officer and chief financial officer, of the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) as of the end of the period covered by this Quarterly Report. Based on this evaluation, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures were effective as of March 31, 2017, the end of the period covered by this Quarterly Report.

Changes in Internal Control Over Financial Reporting

During our most recent fiscal quarter, there has not been any change in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II — OTHER INFORMATION**Item 1. Legal Proceedings**

We are not currently subject to any material legal proceedings.

Item 1A. Risk Factors

Risk factors that affect our business and financial results are discussed in Part I, Item 1A. “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2016. There have been no material changes in our risk factors from those previously disclosed in our Annual Report. You should carefully consider the risks described in our Annual Report, which could materially affect our business, financial condition or future results. The risks described in our Annual Report are not the only risks we face. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition, and/or operating results. If any of the risks actually occur, our business, financial condition, and/or results of operations could be negatively affected.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**Repurchases of Securities**

The table below sets forth information regarding repurchases of our common shares during the three months ended March 31, 2017. All of the shares represent common shares that were tendered to the Company by employees in connection with the vesting of restricted shares to satisfy tax withholding obligations. We do not consider these transactions to be a share buyback program.

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs
January 1 - January 31, 2017	56,715	\$ 32.37	—	—
February 1 - February 28, 2017	—	N/A	—	—
March 1 - March 31, 2017	64,212	\$ 35.54	—	—
Total	120,927		—	—

Item 5. Other Information**2017 Annual General Meeting of Shareholders**

On May 3, 2017, we held our 2017 Annual General Meeting of Shareholders (the "Annual Meeting"). A total of 93,376,963 shares of our common shares were entitled to vote as of March 17, 2017, the record date for the Annual Meeting, of which 79,676,952 shares were present in person or by proxy at the Annual Meeting.

At the Annual Meeting, our shareholders approved the amendment and restatement of our 2013 Long-Term Incentive Plan (the "Plan") to, among other things:

- reduce the number of common shares that may be issued or the subject of awards under the Plan to 7.5 million (down from the approximately 14.7 million shares available for issuance previously);
- re-approve the material terms of the performance goals set forth in the Plan for purposes of Section 162(m) of the Code, including the performance objectives set forth in the Plan and the per participant limit on the number of shares that may be made subject to awards granted under the Plan per fiscal year, so that certain awards granted under the Plan may continue to qualify as performance-based compensation under Section 162(m) of the Code;
- revisions to the maximum dollar value of certain awards that may be granted to participants in a calendar year for purposes of Section 162(m) of the Code;
- inclusion of performance cash awards to provide the Company with additional flexibility to comply with Section 162(m) of the Code;
- an amendment to remove the "evergreen" feature included in the Plan pursuant to which the number of shares available for grant under the Plan would automatically increase each year;
- an amendment to provide that awards granted under the Plan generally must vest over a period of not less than one year from the date of grant;
- an amendment to clarify that for purposes of the share reserve under the Plan, shares will not be deemed to be issued on account of (i) any portion of an award that is settled in cash, and (ii) awards assumed or substituted by us or our affiliates as part of a corporate transaction (including from an entity that we merge with or into, acquire, or engage with in a similar corporate transaction);
- an amendment to provide that participants may satisfy any withholding payment of any kind at either the minimum statutory required withholding rates or other applicable withholding rates, as may be utilized without creating adverse accounting treatment under applicable accounting standards;
- an amendment to clarify that dividend and dividend equivalents may be payable with respect to restricted common share units and performance awards; provided that, such dividend and dividend equivalents will not be paid with respect to awards of restricted stock units and performance awards, as applicable, until the underlying award is earned and vests; and
- a clarification that no recovery of compensation under a clawback policy will be an event giving rise to a right to resign for "good reason" or "constructive termination" (or similar term) under any agreement with us or any of our affiliates.

Our directors, officers and employees are eligible to participate in the Plan. A copy of the Plan, as amended and restated, is included as Appendix B to our proxy statement filed with the Securities and Exchange Commission on April 3, 2017.

The following is a summary of the final voting results for each matter presented to shareholders at the Annual Meeting.

Proposal 1 - Election of Class III members of our board of directors to serve through the 2020 Annual General Meeting of Shareholders:

	Votes For	Votes Withheld	Broker Non-Votes
Mark A. Casale	74,479,406	657,408	4,540,138
Douglas J. Pauls	74,715,404	421,410	4,540,138
William Spiegel	71,943,812	3,193,002	4,540,138

Proposal 2 - The re-appointment of PricewaterhouseCoopers LLP as the Company's independent registered public accounting firm for the year ending December 31, 2017 and until the 2018 Annual General Meeting of Shareholders, and the referral of the determination of the auditors' compensation to the board of directors, was ratified:

Votes For	79,275,710
Votes Against	278,392
Abstentions	122,850

Proposal 3 - Provide a non-binding, advisory vote on our executive compensation:

Votes For	73,710,610
Votes Against	1,302,658
Abstentions	123,546
Broker Non-Votes	4,540,138

Proposal 4 - Approve the Essent Group Ltd. Annual Incentive Plan:

Votes For	74,464,507
Votes Against	642,324
Abstentions	29,983
Broker Non-Votes	4,540,138

Proposal 5 - Provide a non-binding, advisory vote on our executive compensation:

Votes For	71,027,185
Votes Against	4,078,421
Abstentions	31,208
Broker Non-Votes	4,540,138

Termination of Letter Agreement with Goldman Sachs Group, Inc.

On May 5, 2017, the Company's obligations under that certain letter agreement dated October 2, 2013 (the "Agreement") between The Goldman Sachs Group, Inc. ("GS") and Essent Group Ltd. terminated pursuant to a termination agreement entered into between those parties. The parties terminated the Agreement in recognition of the fact that the Company is no longer considered to be a non-bank subsidiary of GS under the Bank Holding Company Act of 1956, as amended.

Resignation of Director

Adolfo Marzol resigned from his positions with the Company as a member of the board of directors and Senior Policy Advisor on Housing Finance effective May 6, 2017 in light of Mr. Marzol's appointment as Senior Advisor to Dr. Ben Carson, United States Secretary of Housing and Urban Development.

CERTIFICATION

I, Mark A. Casale, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Essent Group Ltd.;
2. Based on my knowledge, this quarterly report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this quarterly report;
3. Based on my knowledge, the financial statements, and other financial information included in this quarterly report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this quarterly report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
